

## Alphabetical Word List for Clam Unit

Adult clam	Ecology	High water line/mark
<i>Anas rubripes</i>	Egg	Hinge line adductor scar
Anus	Enclosure	Hinge ligament
Anterior adductor muscle	Esophagus	<i>Homarus americanus</i>
Anterior adductor muscle scar	<i>Euspira heros</i>	Horizontal
Anterior end of clam	<i>Euspira triseriata</i>	Hypothesis
Anterior scar elongate	Excretory pore	Incurrent siphon
Benthos	Excurrent siphon	Infauna
Binomial name	External anatomy	Initial length
Bivalve	Fecundity	Internal anatomy
Byssus	Fertilization	Intestine of clam
Bloodworm	Final shell length	Invasive species
Black duck	Food Chain	Invertebrate
<i>Carcinus maenas</i>	Food Web	Juvenile clam
Carnivorous	Foot	Labial palp of clam
<i>Cerebratulus lacteus</i>	<i>Fundulus heteroclitus</i>	Left valve of clam shell
Clam larva	Gill	Life cycle
Chondrophore	<i>Glycera dibrianchiata</i>	Low tide
Consumer	Gonad of a clam	Lower tidal zone
<i>Crangon septemspinosa</i>	Green crab	Low water line/mark
Crystalline style	Growth rate	Mantle of clam
Cultured clam	Habitat	Marine
Data	Hatchery	Mesh
Digestive gland of the clam	Hatchery mark	Middle tidal zone
Digestive system	Heart of a clam	Milky ribbon worm
Dorsal	High tide	Mollusk

Alphabetical Word List for Clam Unit

Mortality rate	Salinity	Visceral mass of clam
Mouth of clam	Sandworm	Voracious
<i>Mya arenaria</i>	Sediment	Zooplankton
Mummichog	Seagull	
Muscle scar	Shell of a clam	
<i>Neanthes virens</i>	Siphon	
Neoplasia	Spat	
Nephridia	Spatulali	
Northern moon snail	Stock enhancement	
Organism	Stomach of clam	
Pallial line	Straie of clam	
Pediveliger stage of clam	Stress ring	
Pelagic	Style sac	
Periostracum	Substrate	
Plankton	Survival rate	
Phytoplankton	Tidal height	
Posterior adductor muscle	Tidal inundation	
Posterior adductor muscle scar	Tree line	
Posterior end of clam	Trochophore	
Predation	Umbo	
Predator	Umbones of a clam	
Proboscis	Upper tidal zone	
Producer	Veliger	
Quadrat	Vernier calipers	
Rectum	Vertical	
Rock Crab	Ventral
